

Office of the Mayor

COVID-19 Pandemic Water and Sewage Services Shutoff Suspension.

Earlier this year we suspended shutting off water and sewage services to our citizens that became delinquent because of the COVID Pandemic. We would not like to have our citizen's services cutoff at a critical time as we are in now. I would impress upon the citizens that are abusing the generosity of the city and have fees that are months behind to come in and pay their bill. You can also come in and talk with the City staff, they are very helpful and are willing to make payment arrangements to bring your bill current. The water that we service your homes with still has to be paid to our supplier.

Thank you for your assistance,

Mayor Victor Contreras
